SINGLE - DUO - BENCH - MANAGER - CLUB DESK - CONFERENCE - LIBRARY

From desk
to bench workstations,
and everything in between

This minimalist range of desks and conference tables with an elegant base and "floating" desktop brings a visual sense of openness to any space. The base design ensures maximum legroom. The wide-range of dimension and shape options makes this a truly multifunctional desk range.

Features

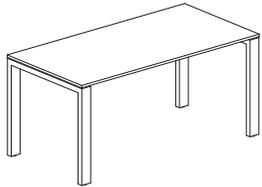

- four-leg desk and conference table with an elegant steel base
- desk and conference tables with the same appearance and giving the same impression
- maximum legroom
- height-adjustable sit-sit with easy adjustment
- elegant design and "levitating" desktop
- a stable design
- easy to disassemble, parts can be separated for re-use

Design: Peter de Boer

Peter de Boer (1952) went to technical secondary school (MTS), studied mechanical engineering at higher technical level (HTS) and Industrial Design at the Rietveld Academy.

He worked for a short time as a freelance designer and in 1980 joined Gispen as a product designer.

Peter de Boer has designed a great number of products for Gispen, including chairs, table programmes, workplace lines, lamps, cupboards and office concepts.

Well known designs on which he has worked alone or together with other designers are Meta, Next, STyle, Octa, TM en TM-Duo, Work, CubiC en Ellen Lounge.
